My previous works & partners:
We have produced over 70 documentaries/docu-dramas and documentary series on various topics such as human interest, history, culture and nature. Our documentary series ON THE RAILS OF THE DOUBLEHEADED EAGLE was one of the most successful productions in the 30-year history of the German/Austrian/ Swiss TV network 3sat.

I’m bringing to MIPTV:
We are seeking partners (co-producers, broadcasters, streaming providers, financing partners) for our current projects, three documentary/docu-drama series as well as one historic drama series.

AMONG THIEVES (scripted historic drama, 5 episodes) plays against the background of the Napoleonic Wars and tells the true story of Simon Kramer, a common bandit and outlaw in the Alps who has the courage to resist the tyranny of the French and becomes a legend in a time of hardship and oppression. This epic story is to be filmed on original locations in the south of Austria with its magnificent castles, historic towns and unmistakable, picturesque alpine landscapes. Bible, screenplay and trailer available.

TO THE ENDS OF THE WORLD (5 episodes) follows the daring journeys of outstanding female explorers to distant countries and foreign peoples and cultures. The series portrays women who set off to travel through unknown territory and explore strange, fascinating living environments. These were women whose thirst for knowledge, curiosity and yearning for adventure inspired them to leave behind the world with which they were familiar and venture into the unknown.

EUROPE’S WILD RIVERS (5 episodes) In this series we follow the last free-flowing, wild watercourses in Europe and explore breathtaking river landscapes in all compass directions, each river offering a visually stunning cinematic journey from source to sea, along forever-changing courses of water, a voyage of discovery through river meadows, wetlands and fertile delta areas. We make stops on the way in order to investigate unfamiliar landscapes and to profile people living along the river, for whom its untamed nature has a special significance.

LUST & POWER - THE STORY OF PROSTITUTION (2 episodes) The history of prostitution is a foray through the cultures of humanity and highlights the significance of «true lust» during various epochs and across the range of different societies. Where differing societal moral standpoints and the shadowy zones of every society collide, this documentary series illuminates the phenomenon of prostitution from different points of view.

I’m bringing to MIPTV:
A truly unique history docudrama about Weird Kings and Queens in history.
Stories of Weird Royals
Length: 4x45min
Production year: 2020/21
Location: China, Russia, France, UK.
Budget: USD 800,000 per hour
The drama-led documentary series, supported by historical re-enactment and CGI, looks at the world’s most eccentric Kings and Emperors. Most of them were not very capable rulers, but rather weird characters.
By looking at their lives from a modern prospective, we reveal the much more ordinary human beings. The series looks at four Kings from different countries. Each of them left his name in history as a highly controversial royal.
The main character of each episode stays in a paralleled universe. The featured royal appears as a narrator in the fictional space throughout the episode, describing important moments and key events of his life, defends himself and explains the motive behind the weird decisions that caused so much controversy.
This character is completely aware of his ruined public image and comments on his short comings, supported by leading English and Chinese speaking historians. The other part of the royals universe shows the Incompetent ruler in the original historical environment.

RAGGARI FILMS
FINLAND

Minna Dufton
Executive Producer

My previous works & partners:
Raggari Films is an independent tv and film production startup based in Helsinki, Finland. The company focuses on producing high quality international documentary films and documentary series with strong female leads. Raggari Films’ signature production is Big vs. Small, a feature documentary about Portuguese big wave rider Joana Andrade. The 76-minute 4K film offers a unique take on the psychology of surfing and will be seen at some of the biggest film festivals of 2020 and 2021. The independently funded film is still looking for funding partners.

Raggari Films was founded by Minna Dufton, an award-winning journalist, documentarist and tv and film industry professional with a cause. Minna has learned her craft by working in big broadcasting corporations such as ITN, BBC and Finnish Broadcasting Company Yle for over 20 years. Her longest post as Producer-Director lasted nine years at Yle and included making a number of successful tv series and documentaries such as Docstop: Saara Aalto, a biographical documentary about Finnish singer and songwriter Saara Aalto:

“In addition to making my films, I always want to make impact. I want my films to act as catalysts for change. I particularly want to ensure that women are active and vocal participants in industry conversations around artistic, social and political issues. I lead by my own example and personally put myself on the line to drive this change; physically, mentally and monetarily.”

I’m bringing to MIPTV:
Raggari Films has been running since January 2019 and has already made major breakthroughs at international documentary markets.

The company’s signature project, Big vs. Small, is a small, artful 4K film about the curious relationship between a tiny woman and a huge wave. The film focuses on Joana Andrade’s very personal story of how she became the only woman in Portugal surfing in Nazare, riding waves between 15 and 30 metres high. The film takes her to Finland for apnea and cold water training with ice diver and Guinness World Record holder, Johanna Nordblad.

BIG VS. SMALL SPECS:
durations: 76” + 52”
versions: 4K + HD
languages: Portuguese, Finnish, English
locations: Portugal, Finland
cinematography: Sakke Kantosalo, Tim Bonython
written and directed by: Minna Dufton
producers: Minna Dufton, Heidi Richert
film editor: Maarit Nissilä
sound design: Juuso Oksala
music: Riversound Music (Finland), Joana Alegre (Portugal)
post production: James Post
key talent: Joana Andrade, Johanna Nordblad, Sergio Cosme

Partners I’m looking for:

My previous works & partners:

4th Act Factual is a new venture; however, our experience speaks for itself. Bettina is an Emmy award-winning producer and former Discovery Channel Commissioning Editor. In the long years that she has been toiling at the coalface of production and broadcasting around the globe, Bettina has managed to garner a slew of documentary awards including the Broadcast Award and RTS award in the UK, and has been responsible for series including the multi-award-winning Age of Terror and Reporters at War. She has created rather complicated international co-productions and managed high-end budgets. She has developed a predilection for films that challenge assumptions, but most of all, she likes a good story well told and has never been able to say no to a challenge. Among her most recent credits «Artemisia, the passion», ‘The Caravaggio Mystery’, ‘Inside Costa Concordia, Voices of Disaster’ for National Geographic, ‘Italian History on a Plate’ for History, SRC, France & among others. ‘Benedict’s Via Dolorosa’, ‘Holy Money’, ‘The Pope and the Mafia’ for Arte, SVT, DR, SRC.

With her production partner and co-founder, multi-award-winning journalist Sheila MacVicar, she has just finished developing a series on journalism for ZDF (Germany), TVO (Canada) and another 9 European broadcasters and as well as a documentary about the Euro for Arte (Franco/German channel), SVT (Sweden),VRT and RTBF in Belgium and History Channel.

4th Act Factual is a transcontinental production partnership fueled by curiosity and a passion for documentaries that challenge assumptions and explain the world around us. We are also partial to the quirky, the unexpected, and the provocative, but more than anything, we love a good story well told. Over the years, and in different places, we’ve collected a fair few awards for our work. Let’s be honest, we’re proud of those and wouldn’t mind a few more.

We’re skilled at building and managing complex international co-productions, finding great partners, and bringing together terrific teams to produce compelling factual programming. We come from news and current affairs, documentary and factual entertainment which gives us a wide range of skills, interests, and a well-padded contact book. Sustained by Skype and the odd glass of wine, we are based in Washington DC, Paris and Rome. By this stage, we have pre-assigned seats on most international airlines which is why we can do what we love anywhere.

I’m bringing to MIPTV:

We have developed a great slate of projects, some series, some one-off’s, attaching some of the finest directors in the business. Our projects include unusual crime stories, a fantastic biography of an extraordinary civil rights pioneer, a deep dive into the world of spies (in heels), an intimate, and behind-the-scenes look at one of the biggest fashion houses in the world. We get up close and personal with some of the globe’s leading celebrities, we reveal how food shapes history and we have a wonderful, heart-warming series about our canine best friends. We pull back the cover on the world’s most successful marketing campaign, and we reveal some unsavoury truths about bling. We’re excited to be talking about our work, and looking forward to new partnerships and sharing.

Additionally, in this age of coronavirus and lock-downs, and recognizing the restrictions and delays this places on all of us, we are now working to develop largely archive-based projects which can rapidly be brought to the screen, filling the gap as productions are halted or paused.

Partners I’m looking for:

Co-producers. Broadcasters and Streamers.

From what regions / countries:

Asia : Japan ● Singapore ● South Korea Europe : Austria ● Belgium ● Czech Republic ● Danmark ● Finland ● France ● Germany ● Ireland ● Italy ● Netherlands ● Norway ● Sweden ● Switzerland ● United Kingdom Latin America : Argentina ● Mexico North America : Canada ● U.S.A.

BLEU KOBALT relies on Maha prestigious documentary portfolio of 100 titles, including international hits on American justice such as «Murder on a Sunday Morning» Oscar winner for Best Documentary and the iconic series «The Staircase». BLEU KOBALT recently produced with BBC a 90 minutes primetime TV documentary «In Search of the Orient-Express» (1-million euros budget), broadcasted on ARTE, distributed by Wild Bunch in more than 70 countries. This film is the definitive documentary on the most famous train in the world, a symbol of travel, luxury and adventure. The film conveys the amazing experience of the great Orient-Express journeys fantasied by Agatha Christie and her «Murder on the Orient-Express», from its maiden voyage in 1883 to its last ride in 1977, with exceptional VFX-3D recreations of the train and reenactments of the first voyages. We also produce in 2019 documentaries for cable channels, such as «Supersonic the great adventure» (2X45’ & 70’), the extraordinary human and technological epic of supersonic aviation, for RMC Découverte, distributed by Off the Fence, and 2 x 52’ documentaries for TF1, about an children hospital in Kaboul with the famous war reporter, Marine Jacquemin (60’) and about the future of the parfum around the world.

I’m bringing to MIPTV:

For the first time, our documentary will recount the extraordinary submarine odyssey of the most legendary shipwreck in the world, with the exclusive participation of ocean explorer and filmmaker James Cameron. From the discovery campaign in 1985 to the greatest expeditions to explore the ship and recover artefacts, we’ll relate the fabulous and tumultuous story of the Titanic wreck endangered by an iron-oxidizing bacteria. The film will be compiled in October 2020. We are now looking for international international pre-buyers and a distributor.

The World According to Xi Jinping has been nominated to the Prix Europa 2019.

I’m bringing to MIPTV:

On our side, we have several films in production and a dozen programmes at different stages of development.

For the ones in production, we are still looking for presales from channels:
- Cesar and Mareoua, a Baby for Hope (52’ and 75’). In production for France 5, Proximus, RTS, RSI, TQ4. Cesar has a genetic disease. His parents decided to have their third wanted child through in vitro fertilization so that he could be compatible with his brother and give him the blood of his ombilical cord. We are still looking for presales.
- Rami à l’Oreal (50’ and 52’). documentary produced for cinema and television. Rami is autistic. He accepted to film the world how he sees it. The two directors will then film Rami filming his world. Our film shows, in a very poetic way, the interactions between two worlds. But are they really so different?
- In the Scottish lands of France (52’). In production for France 3. The story is built around an ancient convention of mutual assistance between Scotland and France that dates back from over 600 years and is still valid. With the Brexit and the desire of Scotts to stay in Europe, this convention takes a new dimension, not only cultural.

In development:
- Alexandre Dumas, the 5th Musketeer (52’ and 90’). In development. Probable partner, France 5. Coproduction with Belgium.
- Jesuits, Another Story of the Catholic Church (2 or 3x52’). Currently in development with Arte. Docu-drama or docu-animation. A worldwide human adventure intertwining romanesque, religious, politics, science, education.

- The Mayor (52’ and 90’). Franco-Italian coproduction with Road Television. Is Fascism “museable”? How can one create of museum of fascism to help future generations to understand, without transforming it into a pilgrimage place for people fascinated by evil?

Partners I’m looking for:

We are curious by nature, always looking for interesting and dedicated production companies to coproduce with, either to finance our projects or to be the French coproducer, helping them to complete their financing round.

We are also always looking for channels to either prebuy and help us finance our ambitious projects or to acquire them when completed.

We study all propositions coming from production companies, authors or directors.

“A Season in Verbier" is a documentary series that follows the demanding lives of 4-5 characters serving rich tourists throughout the winter season. Verbier is one of the most exclusive and expensive ski resorts in the world and working there is a constant challenge. It requires outstanding attention to detail and a knack of managing the unmanageable.

They evacuate skiers from the ski slopes of the major resorts of the Valais Alps, such as Verbier, Crans-Montana or Saas-Fee. They are also called for dangerous rescue missions to extract mountaineers, ski hikers who are stuck on peaks.

I’m bringing to MIPTV:
Eight Months - TV-series 6 x 45 min.

Synopsis:
Following a tip, reporter Nina Wedén makes the scoop of a lifetime when she exposes the Swedish foreign minister for paying for sex. When the charismatic but untested Jacob Weiss is appointed as his successor and Nina is asked to be his press secretary, no one is more surprised than she. Now Nina has to use all her investigative talents to protect the new foreign minister. But who’s actually calling the shots in the corridors of power? Nina is forced to question everything, including her own exposé.

Meanwhile, the political consultant Max Boije ends up out in the cold with all his jobs cancelled. Is that because of the eight-month gap that he uncovered when looking into Weiss’s past? When one of his sources is found murdered in the waters of Riddarfjärden, Max starts to suspect that he’s come too close to a secret that someone is ready to kill to protect.
He now has to seek the truth high up in the political hierarchy. And Nina calls the number she was instructed only to use in an emergency.
Eight Months is a thriller about power and about people who will stop at nothing to achieve it.

RABBIT FILMS
FINLAND

Jonathan Tuovinen
Head of International

My previous works & partners:
Rabbit Films is an independent production and distribution company, bringing unique original concepts to the international market. Our company credo is ‘Positive Anarchy’: we will always have something totally different and crazy about our shows!
Our story originates from the stunt and prank crew The Dudesons, who founded the company in 2001 in order to present their amazing talent to the world. From that, we started to grow and become more and more versatile in the selection of formats and TV series. We are proud to present our catalogue of unique original formats: they have all aired with proven track record!
We have offices on two continents and a strong focus on international sales. Rabbit Films headquarters are in Helsinki, Finland. Rabbit USA is based in Hollywood, where it produces shows and manages The Dudesons brand in North America. Our non-scripted formats include adventure reality series Over the Atlantic, the scripted musical comedy talent series King and the very successful funny game show City Vs Country.

I’m bringing to MIPTV:
Over the Atlantic (Reality, 8 x 60min)
A format that has taken Europe by storm! Six celebrities are given a once in a lifetime challenge to sail across the Atlantic Ocean. In this groundbreaking show, a top-notch sailor is leading a team of celebrities with zero sailing experience to become masters of the sea. Week after week, they learn how to sail, how to work as a team and how to fight the harsh ocean.
King (Entertainment, 8 x 90min)
A breath-taking music comedy show, a huge parody on TV reality formats, where seven caricature contestants are competing in the finals of a fictional talent competition.
City vs Country (Game Show, 12 x 60min)
Weekly prime time feel-good quiz show for the whole family. Never before has our world been so divided. The Us Vs Them -mentality is more prevalent than ever. In this show two hosts take the teams trough three rounds of the game to see which side dominates: city or country?

Partners I’m looking for:
Format buyers from production companies and broadcasters around the world.

Lucid Dream Entertainment is founded by Nilufer Kuyel, who worked with major networks in Turkey like ATV, Kanal D and big production companies like Endemol Shine. After 15 years in the industry, Nilufer Kuyel decided to establish Lucid Dream to open doors to creators to access global partnerships both for scripted and unscripted genres.

We work with top production companies not only from Turkey but in Asia, we scout for their content with global appeal and share it with the world. We work with writers to develop original content targeting global networks. We aim to surface the unexplored creativity and production opportunities coming from Asia and mix it with Western sensibilities to bring the next hit to the industry.

We create our own projects in house- WonderWall is now in development with Fremantle. In our finished sales catalog, apart from globally hot Turkish Content we represent US production companies as well as Korean and Japanese content.

Ready to introduce two original formats «Boss Lady» - it is a compelling and timely new reality format where women with little to no business experience take over their husband’s financially distressed businesses to try and turn them around and «Get Rekt» - named as one of the five ATF Formats Pitch finalists - is a reality competition show on eSports where non millennium age competitors born little too early for the whole eSports boom who never gamed or who stopped playing for whatever reason in the past strive to become eSports players after being coached intensively by young generation professional coaches for 12 weeks.
Additionally, I will introduce our very successful and huge- rating show «Think! Word Game», has been on air since 2009 with over 3000 episodes, winning more than 100 awards along the way. Contestants try to guess 14 words with the least amount of help possible to get the most points. With each letter being worth 100 points, contestants have to solve words with more letters each round, starting with 4-letter-words and solving up to 10-letter-words in the finale.
Finally, our brand new format “One Shot” - One question to chance your life! It is a quiz show and it changes the good people’s live just by one question. First of its kind, a show where the first question is also the last...

Partners I’m looking for:
We like to produce quiz shows and get excited with creative and different social experiment ideas. In this matter we want to get acquainted with various producers, broadcasters, distributors from all countries and know more about the dynamics of different regions. We hope to be able to start collaboration with reliable companies especially in LATAM, North America and Europe and grow our business in different parts of these regions in the coming years. We are open to co-development, co-financing and co-production and design deals. We would like to be involved in innovative digital projects. We will keep an eye on scripted formats too.

I'm bringing to MIPTV :
ALIVE. Sci-fi, YA / 8 x 1 hour
The story is set in unidentifiable future where kids are being raised by AI on a spaceship floating in the depths of space. There are no adults around, as all the adults are supposed to be on the upper deck running the ship. But it turns out there are no adults on the spaceship - everyone who reaches fifteen just gets killed by the main computer. We believe that this story will strongly resonate with YA audience internationally. «Alive” is based on the books by Varvara Yenal, that have already become bestsellers and spun multiple fan fiction in Ukraine and Russia. We are convinced that it's only a matter of time till this story travels further.

We believe that «Alive» tackles relevant and universal issues (typical for sci-fi genre) in a fresh and non-typical way: at its core it's a coming of age story, told through our two female protagonists and 'frenemies' - Emma and Tais.

Partners I’m looking for :
We are looking for co-producers, commissioners, equity investors and international distribution outside of Ukraine.

We are currently in the process of finalizing partnership deals with non-scripted Format companies for representation in the Middle East/Africa, as well as completing our second deal to create approximately 500 hours of drama-based content from South Asia for a major digital platform. As part of this deal we commit to the following:

For the Production House/Line Producer: Ensure our partner productions are financed (either a 100% of their production budget or a majority of their production budget)

For the Digital Platform: Ensure that our partner receives a guaranteed return on their production costs within a 12-15 month period and a revenue share on subsequent licensing deals. They own the IP for the content created and keep the digital rights exclusively for their own use.

For any linear broadcaster involved/singed up at a pre-production stage: Ensure that our partner receives a reduction on their overall content costs and exclusive cable, satellite, terrestrial rights for the content and a revenue share on subsequent licensing deals.

I’m bringing to MIPTV:

My previous works & partners:
For the US market, I have a dating format in development with Stone Entertainment, as well as an unscripted format set in small town America with Fishbowl Worldwide Media. This past Real Screen was a very busy and fruitful market with an additional four unscripted formats optioned to US production companies. I just picked up rights to the documentary The Ugly Model, which chronicles an Asian American model’s quest to redefine Asian male masculinity.

I’m bringing to MIPTV:
I develop and distribute Asian content, with a specific focus on Japan, Korea, and Turkey. I’m working with TV Asahi to bring one of their unscripted formats to the US market, as well. I’m working with Sera Films/Turkey to help bring their formats to the North American market, including a new format set in the world of gaming, which was selected as a finalist in the Asian TV Forum’s format competition. In addition, I am developing animated kids projects for the international market with Keyring Studio, a top animation studio in Seoul, including a new original series based on their YouTube kids series Spookiz, with over 2 billion views on YouTube.

Partners I’m looking for:
I’m looking for two things. First, production companies to partner and adapt unscripted formats and content from Asia and second, content creators (broadcasters, production companies, writers) who need distribution or co-production partners to get their content placed in the US market.

Escape From Pirate Asylum: 52 x 11’ 2D Animated Comedy for 8-12 years

One boy. One Orangutan. No way out!

When young lord (and wannabe pirate) Junicus and his haughty tutor (and Orangutan) Lord Claude, are wrongfully captured and imprisoned on the world’s most impenetrable and mysterious island prison, Pirate Asylum, they soon realise it’s no ordinary clink, but rather a cursed ex-Wizard’s mansion - one whose mysteries they will have to solve if they ever hope to escape alive!

Combining the excitement and adventure of a classic fantasy RPG like Kings Quest with the fun and absurdity of animated series like Regular Show and Gravity Falls, ‘Escape from Pirate Asylum’ is the ultimate blend of action, comedy, mystery and - most importantly - pirates.

Partially serialised (though enjoyable as individual eps thanks to hilarious «previously on»segments) the show will follow the adventures of young lord (and wannabe pirate) Junicus, his newfound ghost friend (and crap shapeshifter) Valeria, and Junicus’ haughty (and Orangutan) tutor Claude, as they work to solve impossible mysteries, defeat terrifying foes (both human and definitely-not-human) and unlock cryptic secrets in order to escape from the world’s most impenetrable island prison (and cursed ex-wizard’s mansion), Pirate Asylum.

Sir Mouse (Scopas, Salty Dog Pictures)
Heinz (Submarine, Bosbros)

I’m bringing to MIPTV:
We will bring the finished series 'Sir Mouse' to MIPTV, which is already sold to Germany, Ireland, Norway, Finland and Israel. The adventures of the two friends, Mouse and Dragon, are heartwarming while breaking through gender stereotypes. We will also bring two new series: Gardner Gavin and BIM.

Gavin, the lovable tin gardener, appeals instantly to the youngest viewers. The eponymous series is both funny and heart-warming. Bashful Gavin tends to Sir Byron Bibbins' charming, country garden with tremendous pride and even more self-discipline. There is just so much to do. Adventure beckons from behind every bush. But Gavin is too conscientious to stray from the garden path and keeps himself busy with the routine chores. His peace is disturbed when tin friend Fien turns up, trailing her crack-pot garden ornaments behind her. The excited bunch just want to have fun in the garden, and they drag poor grumbling Gavin along behind them.

Set against film shots of beautiful English gardens, Gardiner Gavin introduces simple, slapstick tales to the garden foliage. BIM, a TV adventure series for 5 to 9 year-olds, solves the mystery of why 'the clocks fly to Rome' and kids gather Easter eggs. Viewers follow the winged bells on a breathtaking flight over Europe. The 3D animated characters are shown seamlessly against live action drone footage. The series tells the story of Bim the bungling bell, who talks his best friends into entering the Easter competition - a flying race to Rome and home again. Too young and inexperienced to make this exhausting flight, he is determined to join in anyway. And to win ... in memory of his late father, the great Easter champion. But Marva the dastardly bell is also set on victory ... For Bim and his team the journey to Rome is a flight of ups and downs. And an ode to friendship.

Partners I’m looking for:
On this MIPTV we are looking for broadcasters and platforms who are interested in buying Sir Mouse. We’re also on the lookout for partners on Gardiner Gavin and Bim, broadcasters as well as production companies who’d like to step into one of these lovely projects.

Equally important: we are not looking for Service Studio’s to outsource part of the work. As Fabrique Fantastique has his own talented artists, we’d love to share our experience with enthousiast co-production companies rather than looking for service partners.

My previous works & partners:
My partner Maija and I started Haruworks in 2018 with the mission to create social and behavioural change through high-quality children’s content. To that end, we’re in development on a slate of five animated TV series concepts for audiences ranging from lower through upper pre-school up to the 8-11 space. Previously, I built and ran the animation studio at Rovio Entertainment, the Angry Birds makers. There I was responsible for both building a truly international studio of 100+ artists as well as overseeing all production, including the ‘Angry Birds Toons’ series which has been distributed worldwide. Content created under my watch was viewed over 2 billion times in the first 20 months after launch.

I’m bringing to MIPTV:
We’re excited to pitch two new animation concepts at MIPTV: ‘Flip, Flap & Zip’ is our lower pre-school series with an instantly recognisable discovery mechanic at its core. The IP lends itself not only to TV but will also find its way into publishing and digital offerings. The TV series is currently in development and we’re looking for commissioning and pre-buying partners.
In ‘Drifty’ a small teddy bear ?with big pockets and even bigger heart ?explores life, friendship and love in the Magical coastal town of Summerland with his best friends, Rita and Singer. The TV series concept is based on the beloved Finnish children’s book series ‘Uppo-Nalle’ (22 books published). The series is in development, and we’re looking for commissioning and pre-buying partners.

Partners I’m looking for:
We are looking to partner with broadcasters, SVOD’s, investors and distributors who are interested in taking our shows to a worldwide audience.

The idea is to whisk young viewers off to other universes, to send them off on voyages alongside strong heroes that they can identify with, and to take them out of their humdrum daily lives and confront them virtually with new situations that bring them greater maturity. «In this day and age when entertainment is king, we would like to help children think philosophically in order to build and live out adventures via these coming-of-age stories. Georgina is also a board member for Animated Women UK, and served as a jury member for the 2019 BAFTAs (Best Director Category).

I’m bringing to MIPTV:
Georgina will be bringing LoveLove Films’ preschool IP Pop Paper City to MIPTV. The official distribution partner for Pop Paper City is Aardman, creators of Wallace and Gromit and Shaun the Sheep. Pop Paper City is a vibrant 3D craft show with adventure, set in a place where dreams can become reality. The series focuses on a group of unique friends who live at Pop Paper City, the capital of the stunning and endlessly peculiar paper world. In each 7-Minute episode, the characters in Pop Paper City find a new way to have fun together by creating new parts of their already impressive world and using craft to solve their problems and complete their adventure. Live-action montages in the show teach children how to make the paper creations along with the characters, encouraging ‘doing as well as viewing’. To inspire the children watching at home to create their own crafts, the character Helping Hand plays an integral part in Pop Paper City. Helping Hand takes the form of a real hand, which comes down into the screen, interacting with the 3D world. Pop Paper City currently has scripts, storyboards, animation test and teaser trailer available. Georgina also welcomes conversations regarding other IPs and opportunities.

Partners I’m looking for:
